

SOLMIG 170i

Reference: 10132
EAN13: 8427338101322

- **Synergic Multiprocess MIG/MMA.**
- Gas and gasless up to 0,8mm.
- Connection **230V-1ph.**
- Supports D200 (**5kg**).
- Includes earth clamp and MIG torch.

The **SOLMIG-170** wire machine is a multiprocess equipment (MIG / MAG and Electrode) with Inverter technology, ideal for light jobs, designed to be easy and intuitive to use.

Their **single-phase** connection, as well as the possibility of using wire without external gas thanks to the polarity reversal, give them enormous flexibility.

Both wire speed / power and arc height can be adjusted, allowing all types of thicknesses to be welded with very good results.

CARACTERÍSTICAS TÉCNICAS

Intensity MAX.	130A
Duty cycle at 40°C	35%
Intensity at 60%(100%) 40°C	90A (77A)
Regulation	20-150A
Usable electrodes	1,6mm - 3,25mm
Connection	1ph- 230V
OCV	58V
Max. absorbed power	4Kva
Fuse	16A
Apply for demo	0
Ventilation	FORCE
Weight	7,7Kg
Regulation panel	SOLMIG DIGITAL
Norms	EN-90971-1, EN90974-10
Protection Index	IP 21S
Dimensions	367x153x290mm
Wire feeder rolls	2R
Usable welding wire	0,6 - 0,8mm
Max. usable coil	D200 - 5Kg
