

CORE 200i + MALETIN

Reference: K0188
EAN13: 8427338001882

- **Inverter** from **200Amp to 60%** .
- Equipped with **carrying case** ,
- **accessories** for welding.
- Valid for **generator** .
- **TIG Lift-Arc.**

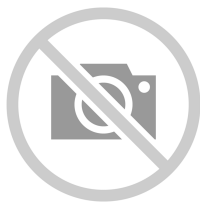

Main features:

The **CORE** models are **INVERTER** coated electrode and TIG welding equipment, which apply the new nanocrystalline technology, achieving an unbeatable weight-performance ratio. All this, at an extremely competitive price; Do you want a SOLTER Inverter? With the new CORE, you can.

- New "**Nanocrystalline**" technology, smaller, more powerful, lighter
- Ease of use thanks to **INVERTER b technology > supplying direct current DC** .
- **Minimum consumption due to its high energy efficiency.**
- **Connectable to generators with a wide range of utilization voltages.**
- **Equipped with Arc-Force and Hot-Start devices.**
- **Possibility of welding TIG.**

CARACTERÍSTICAS TÉCNICAS

Intensity MAX.	200A
Duty cycle at 40°C	60%
Intensity at 60%(100%) 40°C	200A (135A)
Regulation	20 - 200A
Usable electrodes	1,6mm - 4,0mm
Connection	230V-1ph
Usable range	190 - 265V
OCV	72 V
Max. absorbed power	9Kva
I _{max}	40A
I _{eff}	25A
Fuse	16A
Apply for demo	0
Ventilation	FORZADA
Weight	5.5 kg
Regulation panel	SOLTER
Norms	EN-60974-1, EN-60974-10
Protection Index	IP21S
Tig usable electrodes	1,0 - 3,2mm
Dimensions	370x120x210
