

INVERTER STYL 205 PRO + CASE

Ref. 04110

INVERTER STYL 205 PRO is a compact and advanced welding machine that combines **200A at 60% power with outstanding energy efficiency**. Supplied with a carrying case and welding accessories, it is ideal for industrial and maintenance tasks. This model is generator-compatible and features **LIFT-ARC TIG technology**, along with a digital front panel for ease of use. Its **advanced functions such as Anti-Stick, Arc-Force, and Hot-Start** ensure professional results in any application.

Principales Características:

Exceptional power and performance: The **INVERTER STYL 205 PRO** delivers a maximum intensity of **200A at 60%**, enabling welding tasks with excellent arc stability. It is ideal for **MMA and TIG welding**, thanks to its **Lift-Arc** technology, which ensures a clean and contamination-free ignition.

Portable and durable design: Weighing only **7.5 kg** and featuring compact dimensions (**390 x 120 x 245 mm**), it is easy to transport and store without compromising robustness. Its **IP23C** protection rating makes it suitable for working in demanding industrial environments and harsh conditions.

Advanced functions for better results: Integrates technologies such as **Anti-Stick**, which prevents the electrode from sticking; **Arc-Force**, which stabilizes the arc in critical situations; and **Hot-Start**, which facilitates ignition under any condition. Its intuitive digital panel ensures easy operation, making it ideal for users of all skill levels.

Energy efficiency and versatility: **Generator compatible**, the equipment operates efficiently within an input voltage range of **180V to 280V**, adapting to various electrical conditions. Its **9.5 kVA** power consumption and **16A** fuse ensure optimal energy performance while minimizing consumption.

Complete accessories to start immediately: Includes a durable carrying case and essential welding accessories such as cables, clamps, and connectors, allowing the user to **start working right away**. Additionally, it is compatible with **optional accessories** such as **TIG torches and AR/CO2 regulators** to expand its capabilities.

With the **INVERTER STYL 205 PRO**, every project becomes a demonstration of quality and reliability. Trust Solter, where innovation and durability are guaranteed.

TECHNICAL DATA

Generals	
Intensity at 60%(100%) a 40°C	200A (140A)
Intensity MAX.	200A
Regulations	EN-60974-1, EN-60974-10
Regulation	10-200A (20,4 - 28V)
Duty Cycle at 40°C	60%

Technical	
Usable electrodes MMA	1,6 - 4,00 mm
Usable electrodes TIG	1,0 - 3,2 mm

Structural	
Dimensions	390x120x245mm
Protection index	IP23C
Regulation board	SOLTER DIGITAL
Weight	7,5 kg
Ventilation	DOBLE

Electrical	
Supply Voltage	230V - 1Ph
Fuse	16A
I _{eff}	29A
Absorbed power max.	9,5KVA
Voltage range	180V - 280V
OCV	80V
I _{1max}	38A

OPTIONAL ACCESSORIES

Ref. 06031

TORCH 4M TIG SR-17V D35/50

Ref. 56246

GAS REGULATOR R25 AR/CO2
