

ELECTRODE HOLDER 500A

Ref. 06033

❓ The **500A Electrode Holder Clamp** from Solter is designed for professionals who require superior performance in **MMA welding**. With the capacity to **handle up to 500A** of current, it offers excellent electrical conductivity and **exceptional resistance in high-demand environments**. Its ergonomic design ensures a comfortable and secure grip, minimizing fatigue during long working hours. **Perfect for intensive tasks**, its robust structure guarantees long-lasting durability. **Enhance your welding with the power and reliability of Solter!**

Main Features:

- ❓ **Superior current capacity:** Handles up to 500A, ideal for high-demand MMA welding applications.
- ❓ **Versatile compatibility:** Suitable for MMA electrodes up to Ø5.0 mm, offering flexibility for different types of tasks.
- ❓ **Ergonomic design:** Non-slip handle that provides a firm and comfortable grip, reducing fatigue during prolonged use.
- ❓ **High resistance and durability:** Made with high-quality materials, resistant to impacts and extreme conditions.
- ❓ **Efficient conductivity:** Optimized metal components for stable and safe current transmission.
- ❓ **Precise electrode grip:** Improved clamp system that prevents slipping during welding.
- ❓ **Reinforced spring:** Provides constant electrode stability, enhancing precision in every weld.
- ❓ **Optimized weight (450 g):** Perfect balance between robustness and ease of handling for greater operational control.
- ❓ Trust Solter for a safe, efficient, and long-lasting welding experience, even in the most demanding environments.

ELECTRODE HOLDER 500A
