

# CONJ. 3m Cu25mm 10-25 EARTH CLAMP 200 SOLTER

Ref.06148

❓ The 3m Cu 25mm 10/25 GROUND CLAMP SET 200A from Solter is an essential accessory for welding operations, ensuring a **safe and efficient electrical connection** between the power source and the workpiece. Designed to support up to **200A**, this set offers **excellent conductivity** and a secure grip thanks to its **brass clamp, resistant to wear and corrosion**. Its **Dinse 10/25 connector** ensures compatibility with low and medium-intensity welding equipment. Additionally, it complies with **EN 60974-12** and **EN 60974-13** standards, guaranteeing **safety, reliability, and adherence to European regulations** for welding electrical connections. Optimize your welding performance with Solter's quality and reliability!

## Main Features:

- ❓ **Maximum conductivity and efficiency:** Made with a 25 mm<sup>2</sup> copper cable, ensuring excellent current transmission, reducing electrical resistance, and optimizing welding performance.
- ❓ **3-meter length:** Provides greater mobility and convenience, allowing unrestricted reach in various welding environments.
- ❓ **High-strength brass ground clamp:** Premium material provides a firm and stable grip, along with excellent resistance to corrosion and wear.
- ❓ **Current capacity up to 200A:** Ideal for low and medium-intensity MMA welding tasks, ensuring a constant and uninterrupted electrical flow.
- ❓ **Dinse 10/25 connector:** Compatible with most professional welding equipment, ensuring a secure and versatile connection.
- ❓ **Complies with EN 60974-12 standard:** Defines safety and quality standards for welding connectors, ensuring reliable and safe performance.
- ❓ **Complies with EN 60974-13 standard:** Regulates the requirements for return current connections in welding equipment, enhancing electrical stability and operator safety.
- ❓ **Easy installation and use:** Ergonomic design allows for quick and hassle-free assembly, optimizing work time.
- ❓ **Solter guarantees quality and safety in every product, providing professional solutions for demanding welders.**
