

TORCH PLASMA SOLCUT 100 PRO

Ref. 56283

❓ The PT-120 Plasma Torch SOLCUT 100 PRO sets a new standard in metal cutting, delivering maximum precision, efficiency, and durability. Designed for professionals in metallurgy, industrial maintenance, and metal fabrication, its 120A power enables clean and fast cuts in steel, aluminum, and stainless steel with ease. Its optimized structure and ergonomic PT-120 HAND TORCH design ensure comfortable and safe handling. Fully compatible with the SOLCUT 100 PRO system, it is the ideal tool for demanding jobs. The PT-120 Plasma Torch SOLCUT 100 PRO – Precision and Power in Every Cut.

Main Features:

- ❓ **High-precision and efficient cutting:** With a power output of **100A**, the SOLCUT 100 PRO enables **clean, burr-free cuts on steel, aluminum, and stainless steel**, optimizing every process and minimizing the need for additional finishing.
- ❓ **Ergonomic design and superior maneuverability:** The ST-120 HAND TORCH is designed to **provide a secure and comfortable grip**, reducing fatigue during extended use and ensuring full control over every cut, even in demanding conditions.
- ❓ **Durability and resistance in every use:** Equipped with **high-quality components**, such as a long-lasting diffuser and a high-performance electrode, this torch maintains its efficiency over time, reducing wear and maximizing productivity.
- ❓ **Hassle-free compatibility:** Easily integrates with the SOLCUT 100 PRO plasma cutting system, ensuring a stable and secure connection.
- ❓ **Quick and cost-effective maintenance:** Designed for practicality, its easily replaceable consumables allow for **simple maintenance**, ensuring the equipment remains in optimal condition and preventing unnecessary downtime.
- ❓ **Versatility across multiple industries:** Whether in **metallurgy, boiler-making, automotive, or industrial maintenance**, this torch is the ideal choice for professionals seeking performance, reliability, and precision in every task.
- ❓ With **SOLCUT 100 PRO**, every cut is synonymous with quality, efficiency, and precision. Discover the standard of excellence in plasma cutting with Solter.

TORCH PLASMA SOLCUT 100 PRO

Ref. 56283

TECHNICAL DATA

OPTIONAL ACCESSORIES

Generals	
Product Code	56283
Use	Soldadura, oxicorte, corte por plasma
Conectividad	EUROCONNECTOR

Technical	
Potencia nominal	100A

Structural	
Longitud	6 metros
