

TUNGSTEN SHARP 750

Ref. 10350

With the **TUNGSTEN SHARP 750**, you'll achieve unparalleled precision in tungsten electrode sharpening, optimizing your welding performance. Its ergonomic and compact design, combined with a built-in dust collection system, ensures a cleaner, safer, and more efficient work environment. Adjust to the perfect angle (15°, 18°, 22.5°, or 30°), choose from 6 speed settings, and achieve a uniform tip for a stable, uninterrupted arc. The quality of TIG welding starts with a well-sharpened electrode. **Invest in quality and safety—take your welding to the next level with Solter.**

Main Features:

- Professional Precision Sharpening:** Enables sharpening of tungsten electrodes from **1.6 to 4.0 mm**, ensuring exact geometry for a more stable and efficient welding arc.
- Angle Versatility:** Adjustable to **15°, 18°, 22.5°, and 30°**, adapting to different welding needs while improving arc penetration and stability.
- High Power and Performance:** Equipped with a **750W motor** and **6 adjustable speeds**, reaching up to **11,000 rpm** for fast and uniform sharpening.
- Dust Collection System:** Reduces exposure to tungsten particles, protecting the operator's health and keeping the workspace clean.
- Integrated Cutting and Grinding:** In addition to sharpening, it allows for **cutting and tip grinding**, maximizing electrode lifespan and reducing waste.
- Ergonomic and Portable Design:** Weighing only **1.6 kg** and featuring compact dimensions (**340x76x76 mm**), it is easy to transport and store—ideal for industrial and workshop environments.
- Durability and Reliability:** Robust construction with high-quality components, ensuring efficient and long-lasting performance with minimal maintenance.
- Trust Solter to take your TIG welding to the next level with precise, safe, and waste-free sharpening.**

TUNGSTEN SHARP 750

TECHNICAL DATA

Generals	
Product Code	10350

Technical	
Motor max power	750W
Usable electrodes TIG	1,6 - 4.0mm
Angulo de amolado	15° - 18° - 22,5° - 30°
Velocidad maxima	11000
N° velocidades	6

Structural	
Dimensions	340x76x76 mm
Weight	1,6kg

Electrical	
Tensión Alimentación	230V +/- 15%

OPTIONAL ACCESSORIES

Ref. 10352

DISC TUNGSTEN SHARP 750
Ø34ext X Ø5int X 2.3mm
