

SOLFLASH 140A 12V HF

Ref. 10357

 **SOLTER**

❓ The **SOLFLASH 140A 12V HF** from Solter is a professional battery charger and stabilized power supply, fully automatic. Designed for workshops, dealerships, fleets, and industrial environments, it combines high-frequency inverter technology for safe and efficient charging of **12V batteries**, including **lead-acid, AGM, gel, LFP, and lithium batteries**. Featuring a **touch LCD screen**, it allows you to select voltage, current, and battery type, offering full real-time control. It also incorporates the **Showroom function**, ideal for exhibitions, allowing you to keep electrical systems active without draining the battery. It also offers a **Power Supply mode** with stabilized current up to **140A**, perfect for electrical diagnostics, ECU programming, and battery replacements. Includes high-quality connector, cables, and clamps. Trust Solter for superior performance!

Main Features:

- ❓ **Multi-mode smart charging:** Compatible with **lead-acid, AGM, gel, LFP, and lithium batteries**, covering light vehicles, industrial machinery, and complex electronic systems.
- ❓ **Touch LCD screen:** Intuitive interface to **select voltage, current, and battery type**, with **real-time display** of charging status, Ah, and battery condition.
- ❓ **Automatic float mode:** When reaching **100%**, it keeps the battery **charged and protected against overcharging**, even during long periods of inactivity.
- ❓ **Showroom Function:** Provides continuous power to keep **vehicle electrical systems active during exhibitions without draining the battery**, ideal for dealerships.
- ❓ **Stabilized power supply:** Constant current **up to 140A, adjustable from 12.0V to 15.0V (in 0.1V steps)**, ideal for ECU programming and battery replacements.
- ❓ **Comprehensive protection:** Automatic protection against **reverse polarity, overloading, and short circuits**, ensuring maximum safety in professional environments.
- ❓ **High efficiency:** Its **high-frequency inverter technology** optimizes energy consumption and **ensures consistent performance**, reducing charging times and improving efficiency.
- ❓ **Wide charging capacity:** Supports batteries with capacities from **60Ah to 1600Ah**, covering a wide range of vehicles and industrial applications.
- ❓ Trust Solter to keep your batteries always in optimal condition with solutions designed for the most demanding professionals.

SOLFLASH 140A 12V HF

Ref. 10357

TECHNICAL DATA

Generals

Product Code	10357
Conectividad	Pantalla LCD táctil

Technical

Voltaje de carga	12V
Corriente de carga Arith.	3 - 140 A
Tipo batería	Todos los tipo de baterías de 12V
Capacidad de carga max.	20-1600Ah
Fuente alimentación	140A
Protección fugas	Inversión de polaridad, sobrecarga, cortocircuito

Structural

Protection index	IP31
Weight	6kg
Dimensions	290x340x130mm

Electrical

Supply Voltage	220-240VAC 50/60Hz
----------------	--------------------

OPTIONAL ACCESSORIES

Ref. 10405

KIT POWER SUPPLY
