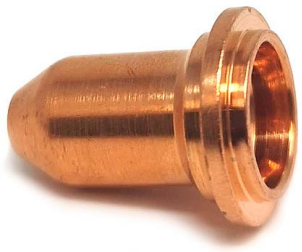
CUTTING TIP SHORT 0,8 20-30A PT20C/60 2u.

Ref. 55974



\xa0Con la buza corta de 0,8 mm para antorchas PT60, diseñada para trabajar con corrientes de 20 a 30 amperios. Su tamaño compacto permite un control superior y mayor precisión en zonas de difícil acceso. Fabricada con materiales de alta calidad, proporciona estabilidad del arco y un rendimiento constante en corte por plasma. Ideal para trabajos detallados y acabados limpios. Incluye 2 unidades por pack. ¿Buscás precisión y fiabilidad en cada pasada? ¡Elegí Solter y llevá tu equipo al siguiente nivel!

Main Features:

 Detailed cutting at 20–30A: The 0.8 mm diameter allows controlled plasma flow, ideal for cutting medium-thickness sheets with precision requirements.

 Compact design: The short nozzle enables access to tight areas, allowing precise maneuvers without compromising operator control.

 PT60 compatibility: Designed for professional and semi-professional PT60 torches, widely used in plasma cutting systems.

 Robust construction: Made from high-conductivity materials, it provides stable plasma distribution and extends the torch's lifespan.

 2-unit pack presentation: Practical and economical for maintaining consumable stock in the workshop.

 Ideal applications: Precision cutting in metal structures, industrial maintenance, parts fabrication, and adjustment tasks.

 Quick and secure installation: The fastening system allows nozzle changes without the need for tools, reducing downtime.

At Solter, every consumable is developed with the real demands of professional welders and cutters in mind. This nozzle offers performance, durability, and compatibility—validated under intensive working conditions.
