LINER POLYAMIDE 1.0-1.2mm

Ref. 06765

La **sirga de poliamida Ø 1,0-1,2 mm de 4 metros**\xa0es el accesorio esencial para soldadura MIG/MAG con hilo de aluminio. Gracias a su interior de baja fricción, asegura un deslizamiento suave y constante del hilo, previniendo atascos y deformaciones. Diseñada para profesionales que buscan estabilidad en la alimentación del hilo, esta sirga es ideal para trabajos exigentes con aleaciones blandas. Compatible con antorchas MIG estándar y hilos de aluminio Ø 1,0 a 1,2 mm. ¿Quieres soldaduras más limpias y precisas?

Get your torch equipped with Solter technology now!

Key Features:

 Compatibility with aluminum wire Ø 1.0–1.2 mm: Specifically designed to work with soft wires, this polyamide liner provides smooth feeding—ideal for sensitive materials like aluminum.

 Low-friction polyamide: The inner lining allows the wire to move without interruptions, eliminating friction that causes jams and enhancing weld bead quality.

 Professional 4-meter length: Ideal for most MIG torches used in industrial settings or technical maintenance environments.

 Reinforced metal tip: Enhances heat resistance at the end section, especially during high-intensity tasks, and ensures a secure connection with the torch.

 Superior performance in aluminum welding: Delivers precision, consistency, and cleanliness in every pass, providing greater control to welding professionals.

At Solter, we develop accessories tailored to the real needs of professionals. The liner Ref. 06765 is the ideal choice for those who refuse to compromise on quality when working with aluminum.

LINER POLYAMIDE 1.0-1.2mm

Ref. 06765

TECHNICAL FEATURES

Generales	
Product Code	06765
Diameter	Ø 1,0-1,2 mm
Use	Aluminum wire guide for MIG torch

Structurals	
Longitud	4 m
Material	Polyamide with Metal Tip

OPTIONAL ACCESSORIES
