

# XL CASE

Ref. 20027

El Solter XL Case is designed to **protect and transport welding equipment** with total safety. With a **usable capacity of 60 liters** and high-resistance materials, it offers a **firm internal hold** that prevents movement during transport. Its **590 x 370 x 365 mm dimensions** and **ergonomic folding handle** ensure comfortable, efficient handling. Ideal for professionals seeking **organization, durability, and practicality** throughout the workday, both in the workshop and on-site.

## Main Features:

- ✓ **Optimal storage capacity:** 60 liters of usable volume with space for up to 2 kg of material or tools. Easily organizes welding equipment and accessories.
- ✓ **High impact resistance:** Built with robust materials that protect your tools even in demanding conditions or industrial environments.
- ✓ **Functional dimensions:** 590 mm long, 370 mm wide, and 365 mm high. Generous internal space without compromising portability.
- ✓ **Interior strap fastening:** Keeps equipment secure and stable, reducing the risk of impacts, shifting, and scratches during transport.
- ✓ **Double front closure:** Provides an extra level of security, preventing accidental openings and protecting the contents.
- ✓ **Ergonomic folding handle:** Makes carrying the case easier and allows for convenient storage when not in use.
